

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A styptic applicator for pets comprising:
 - a container with a chamber containing ~~for filling with~~ a styptic;
 - a removable cap for said container;
 - an applicator device for applying the styptic; and
 - a filing device.
2. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is located on a side of said container.
3. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is located on a bottom of said container.
4. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is located on a top portion of said container.
5. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device has an attachment member for being removably attached to the container.
6. (Originally Presented) A styptic applicator according to claim 5, wherein said attachment member is a snap mechanism.
7. (Originally Presented) A styptic applicator according to claim 5, wherein said attachment member is a sticky material.

8. (Originally Presented) A styptic applicator according to claim 5, wherein said attachment member comprises a hook and loop mechanism.
9. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is made of emery board material.
10. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is made of metal.
11. (Originally Presented) A styptic applicator according to claim 10, wherein said filing device has a herring bone cross-hatch.
12. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device is made of a sand-paper material.
13. (Originally Presented) A styptic applicator according to claim 1, wherein said filing device has both a coarse and a fine cross-hatch.
14. (Originally Presented) A styptic applicator according to claim 1, wherein said cap is integral with said applicator device, and said applicator device has a concave shape in order to hold said styptic.
15. (Originally Presented) A styptic applicator according to claim 14, wherein said concave shape is triangular.
16. (Originally Presented) A styptic applicator according to claim 15, wherein said concave shape is slanted to form a funnel shape.
17. (Originally Presented) A styptic applicator according to claim 14, wherein said applicator device has a spout.

18. (Originally Presented) A styptic applicator according to claim 1, wherein said cap is flush with a side of said container.

19. (Originally Presented) A styptic applicator according to claim 1, wherein said cap comprises a gripping surface, wherein said gripping surface comprises a depression on a side for gripping said cap.

20. (Originally Presented) A styptic applicator according to claim 1, wherein said cap comprises a gripping surface wherein said gripping surface is made of elastomeric material for improved gripping.

21. (Originally Presented) A styptic applicator according to claim 1, wherein said cap further comprises a handle for gripping said cap.

22. (Originally Presented) A styptic applicator according to claim 21, wherein said handle extends into said chamber of said container.

23. (Currently Amended) A styptic applicator for pets comprising:

storing means for holding a styptic;
a styptic held within said storing means;
application means for applying said styptic;
covering means for sealing said storing means;
filing means for filing a nail.

24. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means is located on a side of said storing means.

25. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means is located on a bottom of said storing means.

26. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means is located on said covering means.

27. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means has attachment means for being removably attached to the container.

28. (Originally Presented) A styptic applicator according to claim 27, wherein said attachment means is one of the following; a snap mechanism, a sticky material, or a hook and loop mechanism.

29. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means is made of one of the following; metal, sand-paper, or an emery board material.

30. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means has a herring bone cross-hatch.

31. (Originally Presented) A styptic applicator according to claim 23, wherein said filing means has both a coarse and a fine cross-hatch.

32. (Originally Presented) A styptic applicator according to claim 23, wherein said application means has a concave shape in order to hold said styptic.

33. (Currently Amended) A styptic applicator according to claim ~~23~~32, wherein said concave shape is triangular.

34. (Currently Amended) A styptic applicator according to claim ~~32~~23, wherein said concave shape is slanted to form a funnel shape.

35. (Originally Presented) A styptic applicator according to claim 23, wherein said applicator means has a spout.

36. (Originally Presented) A styptic applicator according to claim 23, wherein said covering means is flush with a side of said storing means.

37. (Originally Presented) A styptic applicator according to claim 23, wherein said covering means comprises gripping means for gripping said covering means, wherein said gripping means comprises a depression on a side for gripping said covering means.

38. (Originally Presented) A styptic applicator according to claim 23, wherein said cap comprises a gripping means for gripping said covering means wherein said gripping means is made of elastomeric material for improved gripping.

39. (Originally Presented) A styptic applicator according to claim 23, wherein said covering means further comprises a handle for gripping said cap.

40. (Currently Amended) A styptic applicator according to claim 3923, wherein said handle extends into said storing means.

Claims 41-46 (Canceled).

47. (Currently Amended) A styptic applicator for pets comprising:
a container with a chamber containing~~for filling~~ with a styptic; and
a filing device.

48. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is located on a side of said container.

49. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is located on a bottom of said container.

50. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is located on a top portion of said container.

51. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device has an attachment member for being removably attached to the container.

52. (Originally Presented) A styptic applicator according to claim 51, wherein said attachment member is a snap mechanism.

53. (Originally Presented) A styptic applicator according to claim 51, wherein said attachment member is a sticky material.

54. (Originally Presented) A styptic applicator according to claim 51, wherein said attachment member comprises a hook and loop mechanism.

55. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is made of emery board material.

56. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is made of metal.

57. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device has a herring bone cross-hatch.

58. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device is made of a sand-paper material.

59. (Originally Presented) A styptic applicator according to claim 47, wherein said filing device has both a coarse and a fine cross-hatch.

60. (Originally Presented) A styptic applicator according to claim 47, further comprising a removable cap.

61. (New) A styptic applicator for pets comprising:

- a container with a chamber for filling with a styptic;
- a removable cap for said container;
- an applicator device for applying the styptic; and
- a filing device, said filing device having an attachment member for being removably attached to the container, said attachment member being a snap mechanism.

62. (New) A styptic applicator for pets comprising:

- a container with a chamber for filling with a styptic;
- a removable cap for said container;
- an applicator device for applying the styptic; and
- a filing device, said filing device having an attachment member for being removably attached to the container, said attachment member being a hook and loop mechanism.

63. (New) A styptic applicator for pets comprising:

- a container with a chamber for filling with a styptic;
- a removable cap for said container;
- an applicator device for applying the styptic;
- a filing device; and

wherein said cap is integral with said applicator device, and said applicator device has a concave shape in order to hold said styptic.

64. (New) A styptic applicator for pets comprising:

- a container with a chamber for filling with a styptic;

a removable cap for said container wherein said cap further comprises a handle for gripping said cap;
an applicator device for applying the styptic; and
a filing device.

65. (New) A styptic applicator for pets comprising:

storing means for holding a styptic;
application means for applying said styptic wherein said application means has a concave shape in order to hold said styptic;
covering means for sealing said storing means;
filing means for filing a nail.

66. (New) A styptic applicator for pets comprising:

storing means for holding a styptic;
application means for applying said styptic, wherein said application means has a spout;
covering means for sealing said storing means;
filing means for filing a nail.

67. (New) A styptic applicator for pets comprising:

storing means for holding a styptic;
application means for applying said styptic;
covering means for sealing said storing means, wherein said covering means further comprises a handle for gripping said cap;
filing means for filing a nail.

68. (New) A styptic applicator for pets comprising:

a container with a chamber for filling with a styptic; and
a filing device, wherein said filing device has an attachment member for being removably attached to the container, and wherein said attachment member is a snap mechanism.

69. (New) A styptic applicator for pets comprising:
- a container with a chamber for filling with a styptic; and
 - a filing device, wherein said filing device has an attachment member for being removably attached to the container, and wherein said attachment member is a hook and loop mechanism.
